

Bylaw 503 H. Concussion Protocols as Per Ed. Code 49475.(a).(1)

A student-athlete who is suspected of sustaining a concussion or head injury in a practice or game shall be removed from competition at that time for the remainder of the day. A student-athlete who has been removed from play may not return to play until the athlete is evaluated by a licensed health care provider trained in education and management of concussion and receives written clearance to return to play from that health care provider. If a licensed health care provider, trained in education and management of concussion determines that the athlete sustained a concussion or a head injury, the athlete is required to complete a graduated return-to-play protocol of no less than 7 days, from the time of diagnosis, in duration under the supervision of a licensed health care provider. On a yearly basis, a concussion and head injury information sheet shall be signed and returned by all athletes and the athlete's parent or guardian before the athlete's initiating practice or competition.
